

| <b>Session 1A Saturday, July 13<sup>th</sup></b>  |  | <b>Chair: HARAMOTO, Eiji</b>   |             |
|---|--|--|-------------|
| <b>Oral presentation: 13:10-14:20, Poster viewing: 14:20-15:25, Put up poster by 13:10 Saturday, July 13<sup>th</sup></b> |  |  |             |
|   | <b>Speaker</b>   | <b>Title</b>   | <b>Page</b> |
| 1A-01   | KHRISRACHMANSYAH,<br>Rezky<br>(00019275)                               | Sustainable Urban Water in Developing Country through Landscape Approach, Ciliwung River Case Study  | 1           |
| 1A-02   | <del>RATTANADILOK NA,<br/>Kiattisak<br/>(00019546)</del> <b>CANCEL</b> | <del>Anaerobic Co-digestion of Distillery Wastewater of Community Refined Liquors Plant with Glycerol waste and Molasses in Lab-scale Continuously Plug-flow Reactor</del>   | 1           |
| 1A-03   | <del>PRASETYORINI, Linda<br/>(00019549)</del> <b>CANCEL</b>            | <del>The Using of Abrupt Rise to Control Tailwater Level on the Downstream Area</del>  | 2           |
| 1A-04   | DAO, Nguyet Thi-Minh<br>(00019550)                                     | Possible Degradation of Pesticides in the Nitrifying Expanded-bed Filter for Drinking Water Treatment  | 2           |
| 1A-05   | OGATA, Fumihiko<br>(00019551)  | Characteristics of a novel nickel-aluminum-zirconium complex hydroxide and its adsorption capability of phosphate ion  | 3           |
| 1A-06   | LEE, Jin Hyo<br>(00019553)   | The Water Quality Characteristics of Effluent Groundwater Flowing into The River in Seoul  | 3           |
| 1A-07   | <del>AQIL, Sayed Waiullah<br/>(00019554)</del> <b>CANCEL</b>           | <del>Harvesting Runoff Water to Recharge Groundwater in Kabul Basin</del>  | 4           |
| 1A-08   | YAMADA, Kaho<br>(00019555)   | Phenol Degradation in Coking Wastewater by Using a Microbial Fuel Cell   | 4           |
| 1A-09   | KONG, Zhe<br>(00019560)  | Anaerobic Treatment of Industrial Wastewater Containing N, N-Dimethylformamide (DMF) with Anaerobic Membrane Bioreactor (AnMBR): Long-term Operation and Microbial Community | 5           |
| 1A-10   | Vu Duc, CANH<br>(00019558)   | Suitability of CDDP-qPCR to Discriminate Between Infectious and Noninfectious Enteric Viruses in Drinking Water Source and Tap Water in Japan                                | 5           |
| 1A-11   | GU, Yilu<br>(00019556)   | Effect of Calcite Saturation on the Endpoints of Sediment Toxicity Test using <i>Heterocypris incongruens</i>  | 6           |
| 1A-12   | SOTELO, Tiffany Joan Del Rosario<br>(00019561)                         | Treatment Performance of a Sewer Pipe Model Using Different Sponge Media Structures  | 6           |
| 1A-13   | UTAMA, Gemilang Lara<br>(00019566)                                     | Reduction of HCN Toxicity and Water Use on <i>Tacca leontopetaloides</i> Utilization through Ethanol Production  | 7           |
| 1A-14   | NGUYEN, Nga Thi<br>(00019568)  | Prevalence of Antibiotic Resistance Genes in Different Water Environments in Hanoi, Vietnam  | 7           |
| 1A-15   | WARUNYUWONG,<br>Passaworn<br>(00019569)                                | Experiment of Air-Water Interface Generator Application in Aeration System   | 8           |
| 1A-16   | ELREEDY, Ahmed<br>Mohammed Nazem<br>(00019570)                         | Optimizing Key Operational Parameters Affecting Anaerobic Treatment of Saline Industrial Wastewater  | 8           |
| 1A-17   | ZASU, Ryota<br>(00019571)  | Effects of Temperature and Salinity on the Growth and Lipid Accumulation of Salt-Tolerant <i>Chlorella</i> sp.   | 9           |
| 1A-18   | MATSUYAMA, Natsuki<br>(00019723)                                       | A Nitrogen Flow Model considering Food System in Yamanashi   | 9           |
| 1A-19   | LUTFI, Musthofa<br>(00019724)  | Characterization of Activated Carbon from Coconut Shell ( <i>Cocos nucifera</i> ) through Chemical Activation Process  | 10          |
| 1A-20   | KATAOKA, Taiki<br>(00019726)   | Development of Appropriate Pre- and Post-Treatment System for Natural Rubber Industrial Wastewater   | 10          |
| 1A-21   | OSMAN, Muhamad Afif<br>(00019725)                                      | The Importance of Nutrient Control in Combination System of Down-flow Hanging Sponge Reactor and Aquaponics Cultivation  | 11          |
| 1A-22   | <del>LU, Shuming<br/>(00019547)</del> <b>CANCEL</b>                    | <del>Detection of Potable Reclaimed Water Cross-Connection Events By Conventional Water Quality Sensors Using Machine Learning Methods</del>                                 | 11          |

| <b>Session 1B Saturday, July 13th</b>  |  | <b>Chair: NAKAI, Satoshi</b>  |             |
|--|--|---|-------------|
| <b>Oral presentation: 13:10-14:20, Poster viewing: 14:20-15:25, Put up poster by 13:10 Saturday, July 13th</b> |  |   |             |
|  | <b>Speaker</b>                             | <b>Title</b>  | <b>Page</b> |
| 1B-01  | SAWANGJANG, Benyapa<br>(00019572)          | Assessment of Fluoride Intake from Rice Consumption by Using Tap Water Containing Fluoride for Rice Soaking Water   | 12          |
| 1B-02  | ZHAO, Yuanjun<br>(00019573)                | Pretreatment of Submicron Super-fine Powdered Activated Carbon Alleviates Transmembrane Pressure Rise Efficiently   | 12          |
| 1B-03  | Reungsang, Alissara<br>(00019574)          | Photo-fermentational Hydrogen and Lipid Production by <i>Rhodobacter</i> sp. KKU-PS1  | 13          |
| 1B-04  | AKIYAMA, Satoshi<br>(00019575)             | Tempo-spatial Variations of Dissolved Nutrient Conditions in Osaka Bay Caused by Water Environmental Regulation   | 13          |
| 1B-05  | GHAJU SHRESTHA,<br>Rajani<br>(00019576)    | Quantification of <i>Arcobacter</i> and its Virulence Genes in Environmental Water Samples in the Kathmandu Valley, Nepal   | 14          |
| 1B-06  | ISHIZAWA, Hidehiro<br>(00019577)           | Improvement of Duckweed Biomass Production Using Plant Growth-Promoting Bacteria under Various Abiotic Stress Factors   | 14          |
| 1B-07  | CHEN, Yize<br>(00019578)                   | Hydrolysis Speed: Another Indicator for Coagulants' Performance in Coagulation, Sedimentation, and Sand Filtration Treatment  | 15          |
| 1B-08  | NORO, Kazushi<br>(00019579)                | Validation of the Application of a Polar Organic Chemical Integrative Sampler (POCIS) in Unsteady State Conditions  | 15          |
| 1B-09  | GUO, Yan<br>(00019580)                     | Removal Performance, Metabolism and Microbial Interactions of One-stage Deammonification Process under Biodegradable Organic Matter-containing Ammonium Wastewater with Different COD/NH <sub>4</sub> <sup>+</sup> -N ratio | 16          |
| 1B-10  | LI, Peng<br>(00019581)                     | Micro-particles as Interfering Substance in Water's Residual Chlorine Measurement and Possible Solution   | 16          |
| 1B-11  | PAKVILAI, Nisa<br>(00019582)               | Community Participation Process Integrated in Water Quality Management at Rangsit Canal, Central of Thailand  | 17          |
| 1B-12  | LEE, Chang-Han<br>(00019586)               | Adsorption Characteristics of Strontium and Cesium ions onto Zeolitic Materials Synthesized from Coal Fly Ash using a Fusion/Hydrothermal Method  | 17          |
| 1B-13  | ZHANG, Tao<br>(00019584)                   | The High-solids Mesophilic Anaerobic Co-digestion of Food Waste and Sewage Sludge: the Impact of Sewage Sludge Ratio  | 18          |
| 1B-14  | WATARI, Takahiro<br>(00019585)             | Treatment of Water-soluble Copolymer containing Industrial Wastewater by UASB-DHS system  | 18          |
| 1B-15  | SASAKI, Yuya<br>(00019587)                 | Evaluation of the Effect of pH on Germling Growth of <i>Sargassum horneri</i> for Development of Toxicity Test Protocol   | 19          |
| 1B-16  | Fu, Qing-Long<br>(00019588)                | Comparative Performance of Formularity and Two Automated Bath Algorithms for Formula Assignment of Natural Organic Matter   | 19          |
| 1B-17  | BUATES, Jitrera<br>(00019589)              | Phosphate Removal Capacity of Biochar-Layered Double Hydroxides (LDHs) Composites Prepared from Different Techniques  | 20          |
| 1B-18  | MIYAZAKI, Tomoya<br>(00019590)             | Characteristics of Natural Waters at the Northern Mt. Chokai, Japan   | 20          |
| 1B-19  | <del>HARIBOWO, Riyanto</del><br>(00019591) | Assessing the Effects of Catchment Area and Land Use on Water Quality in the River by Using Artificial Neural Network   | 21          |
| 1B-20  | POOPIATTANA,<br>Chomphunut<br>(00019594)   | Investigation of PPCPs Biodegradation and Other Attenuation Processes to Explain Their Temporal Behavior as Sewage Maker in Tokyo Coastal Area after Rainfall Events  | 21          |
| 1B-21  | LYU, Ritao<br>(00019592)                   | Intermittent Contact Oxidation Process under Feast-famine Condition - Implications on In-sewer Purification   | 22          |
| 1B-22  | FUKUSHIMA, Masato<br>(00019593)            | Suppressing Generation of Hydrogen Sulfide by Utilization of Conductive Sewage Pipe   | 22          |

Vidia Fitri Amalia Yusron

| <b>Session 1C Saturday, July 13th</b>  |  | <b>Chair: TAKABE, Yugo</b>   |             |
|--|--|--|-------------|
| <b>Oral presentation: 13:10-14:15, Poster viewing: 14:20-15:25, Put up poster by 13:10 Saturday, July 13th</b> |  |  |             |
|  | <b>Speaker</b>                                 | <b>Title</b>   | <b>Page</b> |
| 1C-01  | LE, Hang Thai<br>(00019595)                    | Mechanisms for High-accumulation of Lipids in a Microalga, <i>Chlamydomonas reinhardtii</i> , by Double Salts, NaCl and CaCl <sub>2</sub> , Stress | 23          |
| 1C-02  | MIYOSHI, Machi<br>(00019616)                   | Effect of Nitrification Restraint of Outflowing Water from Waste Treatment Plants on <i>Nori</i> Aquaculture                                       | 23          |
| 1C-03  | LARAÑO, Arnelyn<br>Doloiras<br>(00019599)      | Genome-Wide Transcriptome Analysis of Stream Stonefly Communities Along a Latitudinal Gradient in Japan  | 24          |
| 1C-04  | VU, Le Hong<br>(00019601)                      | Assessing the Feedback Connections of Anthropogenic Influences on Ecosystem Performance in an Estuarine Lagoon System                              | 24          |
| 1C-05  | TSUCHIYA, Tomomi<br>(00019602)                 | Ecosystem Impact Assessment of Experimental Drainage by Microcosm-WET Test   | 25          |
| 1C-06  | SHIMIZU, Tatsuya<br>(00019603)                 | Influence Analysis of Silver Ion on Aquatic Ecosystem using Microcosm System   | 25          |
| 1C-07  | DOYAMA, Tsuyoshi<br>(00019604)                 | Evaluation of River Environment in Southern Area of Boso Peninsula by Organic Pollution Index using Attached Diatoms                               | 26          |
| 1C-08  | NIIDA, Haruna<br>(00019605)                    | Environmental Evaluation of Southern Area of Boso Peninsula by BMWP Score Method   | 26          |
| 1C-09  | Hasanah, Rafitah<br>(00019606)                 | Biological Phosphorus Removal Performance Using Salt-Tolerant Phosphorus Accumulating Organisms (PAOs) in Seawater                                 | 27          |
| 1C-10  | NURYADIN, Atin<br>(00019607)                   | Amorphous-ZrO <sub>2</sub> /Mg-Fe Layered Double Hydroxide Composite for Phosphate Adsorption  | 27          |
| 1C-11  | XUE, YI<br>(00019608)                          | Influence of Phosphorus Concentration on the Performance and Granule Characteristics of Anammox Expanded Bed Reactor                               | 28          |
| 1C-12  | MEKY, Naira<br>(00019609)                      | Organic Load Optimization for Biological Hydrogen Production from Stand-alone Circular Dark/photo Baffled Fermenter                                | 28          |
| 1C-13  | LI, Yemei<br>(00019610)                        | Methane Production in A Thermophilic Anaerobic Membrane Bioreactor by Anaerobic Co-digestion of Food Waste and Sewage Sludge                       | 29          |
| 1C-14  | SITTIJUNDA, Sureewan<br>(00019611)             | Co-Digestion of Vinasse with Brewer's Yeast for Biohydrogen and Methane Production in a Two-Stage Anaerobic Digestion Process                      | 29          |
| 1C-15  | SHINFUKU, Yuta<br>(00019612)                   | Exploration of a Causative Substance of Fishy-smell in Raw Water for Taps by Combining a LC-HRMS, a GC-O-HRMS, and Multivariate analyses           | 30          |
| 1C-16  | OKADERA, Tomohiro<br>(00019614)                | Water volume- and BOD-based Flow Analysis for Domestic Wastewater Treatment Using Wastewater Inventories of Bangkok, Thailand                      | 30          |
| 1C-17  | PHASUKARRATCHAI,<br>Naphatsarnan<br>(00019613) | Response Surface Design for Cellulose Production from Water Hyacinth to Synthesize Sodium Carboxymethyl Cellulose                                  | 31          |
| 1C-18  | MURAMATSU, Kosuke<br>(00019615)                | Effects of Light Irradiation on Inhibition of Fenton Type Wastewater Treatment Processes by Co-Existing Substances                                 | 31          |
| 1C-19  | CHOI, Jeong-Hak<br>(00019617)                  | Synthesis of Na-A Type Zeolite from Coal Fly Ash under Low-alkali Condition and Its Application to Adsorption of Sr and Cs Ions                    | 32          |
| 1C-20  | WADA, Keiko<br>(00019618)                      | Motor Vehicle Wash-off Water as a Source of Phosphorus in Roadway Runoff   | 32          |
| 1C-21  | GAMBOA, Maribet<br>(00019596)                  | Spatial and Phylogenetic Structure of DNA-species of Alpine Stoneflies Community Assemblages across Seven Habitats                                 | 33          |

| <b>Session2A Saturday, July 13th</b>   |   | <b>Chair: SATO, Hisashi</b>   |             |
|--|---|---|-------------|
| <b>Oral presentation: 15:30-16:40, Poster viewing: 16:40-17:45, Put up poster by 13:10 Saturday, July 13th</b> |   |   |             |
|  | <b>Speaker</b>  | <b>Title</b>  | <b>Page</b> |
| 2A-01  | KIM, Tae-Kyoung<br>(00019619)                             | Removal of Erythromycin (ERY) and ERY-resistant E. coli during UV-LED/Chlorination Process  | 34          |
| 2A-02  | SAKAMOTO, Tomoyoshi<br>(00019621)                         | Phosphate Ion Adsorption Properties of PAN-based Activated Carbon Fiber with K <sub>2</sub> CO <sub>3</sub> Activation  | 34          |
| 2A-03  | LASKAR, Mahasweta<br>(00019620)                           | Homoacetogenesis Induced Autotrophic Dechlorination in A Humic Acid Dependent Penachlorophenol-Dechlorinating Consortium  | 35          |
| 2A-04  | PRAMUGANI, Ahsin<br>(00019622)                            | Treatment of Synthetic Batik Dye Wastewater by Ozonation  | 35          |
| 2A-05  | CANCEL  |   |             |
| 2A-06  | WEI, Kai<br>(00019624)                                    | Control of the Buoyancy of <i>Microcystis aeruginosa</i> Via Colony Formation Induced by Regulating the Amount of Extracellular Polysaccharides and Cationic Ions | 36          |
| 2A-07  | YUMIOKA, Daisuke<br>(00019625)                            | Adsorption of Phosphorus Infiltrating Andosol   | 37          |
| 2A-08  | YUAN, Jinghan<br>(00019626)                               | Adsorption of Nitrate Ion in Aqueous Solution on Nitrogen-doped Activated Carbon Fiber  | 37          |
| 2A-09  | TRINH, Trang Ha<br>(00019627)                             | A Chemical Modelling for Calcium and Magnesium Precipitation Process in Anaerobic Digester Liquor   | 38          |
| 2A-10  | YAMAMURA, Shigeki<br>(00019631)                           | Production of Crystalline Antimony Trioxides by a Dissimilatory Antimonate-reducing Bacterium   | 38          |
| 2A-11  | CHANG, CHIUNGTING<br>(00019628)                           | A Problem-Solving Scenario Approach in Risk Communication: Case study on risks associated with typhoons in Taiwan   | 39          |
| 2A-12  | NAKAZAWA, Yoshifumi<br>(00019629)                         | Effective Removal of Super-Fine Carbon Particles by Intense Flash Mixing and High Basicity Coagulants in Coagulation, Sedimentation, and Sand Filtration          | 39          |
| 2A-13  | USAMI, Akiko<br>(00019632)                                | Dilution and Neutralization Effects of the Tributary Uguigawa River on the Ohtakigawa River Near Mount Ontake in Central Japan                                    | 40          |
| 2A-14  | JIAN, Wei-Lun<br>(00019637)                               | Applying Effective Microorganisms (EM) on the Water Quality Improvement in the Shrimp Ponds: A Primary Study  | 40          |
| 2A-15  | TIAN, Xiaowei<br>(00019633)                               | <i>Dehalococcoides</i> Distribution in Effluent and Soil during Thermal-enhanced Chlorinated Volatile Organic Compounds Dechlorination in Soil Columns            | 41          |
| 2A-16  | SULIANTO, Akhmad Adi<br>(00019642)                        | Well water Quality Distribution around Landfill using Geographic Information System Application   | 41          |
| 2A-17  | LAU, Shiew Wei<br>(00019635)                              | Characterization of a Chitosan-like Bioflocculant BF01314 produced by <i>Citrobacter youngae</i> in Kaolin Flocculation   | 42          |
| 2A-18  | UBUKATA, Mana<br>(00019641)                               | Comparison of Water Environment in Inner and Front Part of Yatsu Tidal Flat in Tokyo Inner Bay using Ecosystem Evaluation Index                                   | 42          |
