Cancellation of onsite Conference:

The Water and Environment Technology Conference 2020 (WET 2020) in Kumamoto, JAPAN

Japan Society on Water Environment
President, Yoshihiko Matsui

Due to the unprecedented situation of the COVID-19 pandemic, the JSWE Board of Directors has decided to cancel the Water and Environment Technology Conference 2020 (WET2020) to be held at Kumamoto University (October 3-4, 2020). Please understand that this decision was made with the highest priority given to ensuring the health and safety of the participants and preventing the spread of infection. We are currently considering the possibility of holding WET2020 as an online conference, but if it does, we will announce it on our website.
